

## RST Construction Monthly

May 12th, 2017

### Construction continues at Rochester International Airport. Recent progress includes:

- **Ground Breaking Ceremony**  
The ground breaking ceremony was a huge success! It was well attended and displayed the tremendous support our community has for this project.
- **Site Work**  
Utility work on the west side of the terminal building will continue through May and into early June. Once utility work on the west side of the terminal is complete, progress on the east baggage addition will begin.
- **Interior Renovations**  
Work has begun behind the scenes in the basement to prepare for the interior renovations coming in the months ahead.
- **Safety Week**  
Kraus-Anderson hosted a safety week that involved highlighting key construction safety topics and ended with a luncheon for all construction and airport operations staff on site.

Construction upgrades now underway at Rochester International Airport will maintain compliance with the airport's international designation. Improvements will include centralized ticketing counters, consolidated baggage claim area and an expanded U.S. Customs area. Follow RST on Twitter @flyrst and on Facebook @RochesterAirport . Follow Kraus-Anderson Construction on Twitter @krausanderson and on Facebook @krausandersoncc.

- **Upcoming Items Affecting the Public**
  - Temporary adjustments to baggage claim
  - Traffic adjustments for work to occur underneath the front entrance canopy
